

Personal Information

Name: Alex Carter

Email: alex.carter.ds@gmail.com

Phone: +1 (415) 678-2345

Skills

- Python, R, SQL
 - Machine Learning (Scikit-learn, XGBoost, LightGBM)
 - Deep Learning (TensorFlow, PyTorch)
 - Data Wrangling & Visualization (Pandas, Matplotlib, Seaborn, Plotly)
 - A/B Testing & Statistical Analysis
 - Big Data (Spark, Hadoop)
 - Cloud Platforms (AWS, GCP)
 - Git & CI/CD Pipelines
 - Problem Solving & Communication
-

Professional Experience

Data Scientist

Lyft Inc., San Francisco, CA

Jan 2022 – Present

- Built real-time pricing models using XGBoost and historical ride data, increasing revenue per user by 9%.
- Collaborated with product managers to design and analyze A/B tests on user engagement features.
- Deployed ML models to production using Docker and AWS Lambda.
- Reduced ETL processing time by 35% by refactoring PySpark pipelines on AWS EMR.

Data Science Intern

Airbnb, San Francisco, CA

Jun 2021 – Dec 2021

- Developed a recommendation system prototype to improve host matching accuracy.

- Used clustering techniques (K-Means, DBSCAN) to segment users for marketing campaigns.
 - Automated data quality checks with custom Python scripts and scheduled Airflow jobs.
-

Education

M.S. in Data Science

University of California, Berkeley – Berkeley, CA

2019 – 2021

B.S. in Computer Science

University of Illinois Urbana-Champaign – Urbana, IL

2015 – 2019
